

Lab program-27:

27. Develop a C program for simulating the function of ls UNIX Command.

Code:

```
#include <stdio.h>
#include <stdlib.h>
#include <dirent.h>

int main(void) {
    DIR *dir = opendir(".");
    if (dir == NULL) {
        perror("opendir");
        return 1;
    }

    struct dirent *entry;
    printf("Directory contents:\n");
    while ((entry = readdir(dir)) != NULL) {
        if (entry->d_name[0] != '.')
            printf("%s\n", entry->d_name);
    }

    closedir(dir);

    return 0;
}
```

OUTPUT:

This is a sample line.

Hello, World!

Sample pattern in this line.

Another sample line.
